

DRUM CLUTCHERS

Ideal for placing drums in secondary containment and salvage drums, the drum clutcher allows for easy lifting and transporting of steel drums with an overhead lifting chain or hoist. Designed for steel drums with a top lip or chime, these are not to be used with open head drums.

- Heavy-duty steel with blue, powder-coated finish
- Sold individually

Style	Capacity	Prices per each		
		Weight	1	3
KSDL30	30 gal.	18 lbs.	\$138.68	\$132.13
KSDL55	55 gal.	23 lbs.	\$148.51	\$141.96

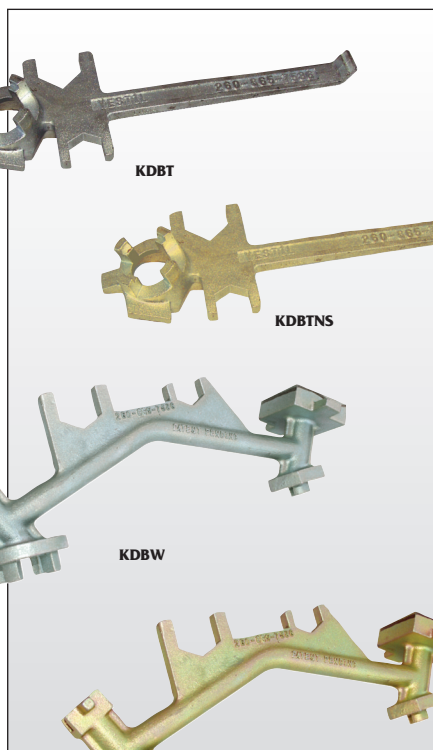

PLUG WRENCH

This 12" long, non-sparking plug wrench allows for easy installation and removal of most common drum plugs.

- Zinc-plated cast iron
- Sold individually
